Children’s garden building contests in Hungary

presented by
Dr. Andrea Bocsi

27th September 2019
Yarmouth, Canada
Hungary is proud to have two towns in „Communities in Bloom” in 2019:

Mosonmagyaróvár with the population of 33,000

Székesfehérvár with the population of 110,000

They are the only two towns in Hungary to have children’s garden building contests.
How was the original idea born in Mosonmagyaróvár?

• „Tiny hands, magical gardens” - „Apró kezek, csodakertek”

• Founded, organised and supported by Mr. Ákos Lobitz in the year 2011 and since then
• supported by the Minister of Agrar Affairs and the local government and businesses of Mosonmagyaróvár
• became a traditional programme of Mosonmagyaróvár by now
• by 2019 enrolled into the Register of Local Values of Mosonmagyaróvár
• the title of the contest is also enrolled into the List of Hungarian Trademarks
The concept of „Tiny hands, magical gardens”

• Organised for children with the age of 5-7 years
• With the aim of:
  ➢ creating gardening miracles in small flowerbeds in the main street of town
  ➢ teaching children how to take care of their creations for one month in the frame of environmental education
  ➢ organising a whole day of entertainment for children in the topic of environment protection
  ➢ providing tourist attraction for the town for a month
  ➢ involving the residents of the town by providing them the chance to vote online for the public award provided by the mayor of Mosonmagyaróvár
Judging criteria of garden building contests

- the garden’s elements harmony with its name
- presentation of the garden
- documentation of preparations
- natural character of the used materials
- dominance of tiny hands
